WHY UNITED WAY?

United Way was created by the community for the community. It is the one way we all come together — year after year, decade after decade — to support each other with a safety net of programs, services, and pathways for upward mobility to help everyone thrive.

We were built for this.

United Way of the Coastal Empire was founded as the Community Chest in 1938. It was created by the leaders of this community, strategically uniting our efforts to address the greatest needs of the time.

Over the past 85 years, the leaders of this organization built a foundation that has strengthened our community. It has become an essential part of the social services infrastructure we invest in to support our region.

While United Way has evolved, it remains driven by volunteers and committed to improving lives through the caring power of our community.

Whether it is a global crisis or one of life's everyday storms, United Way is here. As our region expands, the need for the work of United Way and its funded partners will only increase. It will take all of us coming together, as we have for decades, to meet the growing demands.
